5. To take decision on CFC sanctioned in last Plan but now the Implementing Agency do not want to run it due to its un-viability.

In 11th Plan, the CWDB has implemented a new scheme namely “Quality Processing of Wool & Woolen” (pre-loom and post-loom processing activities) facilitates to provide wool processing facility, quality yarn, better finishing of woollen products and value addition to wool and woolens. Setting up of ‘Common Facility Centre’ (CFC) under this scheme attracts the spinners to modernize their obsolete and small yarn-manufacturing units. The project beneficiaries are State Wool Board/ Corporation, Non-Governmental Organization, registered societies, company, private entrepreneurs etc. engaged in processing of wool and woolens. Under this project the agency has to bear the cost of land & building by their own resources. The Govt. of India (CWDB) provided grant under non-recurring expenses for purchase of machineries only required for setting up the unit. Recurring expenditure borne by the agency/association out of its own resources. The scheme was implemented in project mode of Rs. 50 lakhs or 50% of the total project cost, whichever is less as a machinery part only.

During 11th Plan, the Board has established 14 CFCs for different pre-loom processing activities like : scouring, drying, carding, spinning of wool in Rajasthan, (Bikaner, Kekri & Barmer) H.P. (Rampur, Kullu & Sundar Nagar) , Gujarat (Morbi), Uttarakhand (Deharadun) and Punjab (Ludhiana & Pathankot) States by providing financial grant upto Rs. 50 lakhs per CFC.

Recently Board has received a letter from M/s. Monika Handloom Workshop Coop. Industrial Society, Ludhiana an implementing agency under the scheme and stated that they are not able to run this CFC further due to several reasons like-the financial problems, recession in wool sector, and old age and requested to provide machinery under CFC to some other agency who may be interested to run this CFC.

In financial year 2007-08, the Board had sanctioned one CFC for setting up wool combing & spinning unit for processing of scoured wool into wool tops and spinning of yarn at Ludhiana. The Board had provided financial grant of Rs. 45.57 lakh in favour of M/s. Monika Handloom Workshop Coop. Industrial Society, Ludhiana to established the CFC at Ludhiana.At present this CFC is in idle condition.

Since the machineries cost is of Rs.50.00 lacs and these are in running condition therefore can be use by some other agency with sound financial condition and interested to run these machines.

Matter is placed before the Executive Committee to take appropriate decision on CFC sanctioned in last Plan but for which the Implementing Agency is not able to run it due to its un-viability\ or financial crisis by transferring the machinery to any other interested agency through open advertisement to utilize the plant & machineries.
